

**SECTION 01 41 17**  
**UTILITIES NOTIFICATION**

**PART 1 - GENERAL**

**1.1 GENERAL PROVISIONS**

- A. Comply with all regulations and laws concerning excavation, demolition, or explosive work and be advised of utility notification requirements under all applicable local codes and ordinances.

**1.2 REGULATORY REQUIREMENTS**

- A. Contractors/subcontractors must notify the local utility by telephone or teletype before performing any earth moving or building demolition operations including: building demolition, digging, trenching, boring, site demolition, excavation, backfilling, grading, explosive work in all public ways and private property.
- B. This notification must be made at least forty-eight (48) hours but not more than fifteen (15) days (Saturdays, Sundays and legal holidays excluded) before commencement of the contemplated Work.
  - 1. Provide the following information:
    - a. Name and title of individual serving notice to the Utility.
    - b. Specific location of work site:
      - 1) Location of Work.
      - 2) Site Address and Intersecting street.
      - 3) Site location information (landmarks).
      - 4) Site boundary identification.
    - c. Company name of contractor/subcontractor (excavator) performing subgrade work and mailing address.
    - d. Phone number, fax number and email address of excavator performing subgrade work.
    - e. Excavator's field telephone number, if available. If not furnish General Contractor's field office telephone number.
    - f. Type and extent of the proposed work.
      - 1) Description of Work.
      - 2) Type of work.
      - 3) Proposed depth of work.
      - 4) Extent and method of excavation.
      - 5) Proposed starting date and duration of work.
    - g. Name and title contact person if questions arise, phone number and extension, fax number and email address.
    - h. Best time for the Utility Customer Service Representative to return calls.
  - 2. Caller must record the Utility serial number and lawful dig dates.
- C. Do not commence work until the Utility has been properly notified and has responded in writing.

**1.3 PROTECTION**

- A. The Contractor is fully responsible for protection of the utility location markings, wherever these occur, on or off-site.
- B. Perform Work in such a manner, and with reasonable precautions taken to avoid damage to utilities under the surface in said areas of work. Immediately notify any known or suspected damage to underground utilities to the owner of such utilities.
